

CORN

GROW BIGGER. GROW FASTER. GROW MORE

Grow your corn profits with Growthful.

Growthful™ is the auxiliary soil amendment that helps you grow more, faster and can easily be added to your current cultivation application methods.

- ✓ Increase crop yields
- ✓ Easily mixed with starter fertilizer
- ✓ Improves and increases water/nutrient availability, use, efficiency, processing, and retention
- ✓ Condition your soil for improved plant performance
- ✓ No added application costs

Consult with an Aqueus representative for specific details.

Growthful Pre-Emerge

Pre-emerge application: A single application prior to the emergence of the plant. Dilute 2 gallons of Growthful Pre-Emerge in a minimum of 10 gallons of water and apply to soil prior to emergence of plant. The target application rate is 2 gallons of Growthful Pre-Emerge per acre.

In Furrow application: Dilute 16 oz. of Growthful Pre-Emerge in a minimum of 3 gallons of water per acre on 30" rows. For fields with 15" rows, dilute 32 oz. of Growthful Pre-Emerge in 6 gallons of water per acre.

Growthful Post-Emerge Spray

Broadcast applications: Application of Growthful Post-Emerge Spray should be applied with the first treatment of herbicides, with regular treatments of fungicide during silking, and applied at tassel. Dilute 12.8 oz. of Growthful Post-Emerge Spray in 10 gallons of water and apply broadcast to soil or over crops. Growthful Post-Emerge Spray may be applied at other stages following V1. Apply 12.8 oz. per acre.

Growthful Corn In-Furrow Trial

Cooperator: Dennis Gardner / Gardner Family Farming LLC

Previous Crop: Soybeans

Address: 2491 Galbraith Line Rd., Yale, MI 48097

Tillage Type: Minimum

County: Sanilac County

Irrigated: No

Harvest Date: October 10th, 2021

Soil Type: Clay Loam

Planting Date: April

PRE Herbicide: Balance Flexx

Plot Details: Yield results from field view. Eric Barr from Helena Agri-Enterprises, LLC helped with field view.

Selling price: \$5.00/Bushel

Dry Charge price: \$0.04/point

* Both treated and untreated had nucleus in furrow fertilizer at 3 gallons per acre.

* In furrow side x side.
